3. Click on the question mark next to the field you are having trouble with to see an example document.

You should now create your account. Make sure you use the ‘Create an Account’ form on the left of the screen.

1. Enter the email address you want to use with QParents. It should be one you check regularly.
2. Enter a password of your own choice that you will remember. It must be at least eight characters long.
3. Enter your password again.
4. Enter your mobile phone number.

An email is sent to the email address you entered in Step 6. Click on the link in this email to verify your email address and activate your account.

Every school student has an EQID. It consists of 10 numbers and one letter. You can find it on your child’s student ID card (the numbers under the barcode), report cards, or school invoices, among other documents.

A final check is conducted at your child’s school. You will be notified by email when this check is complete and you will then have access to all of the features in QParents.

Enjoy!
